## Learn

Making of a tent takes less time than constructing a house.

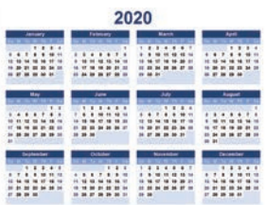

Here, the time taken for making a tent can be expressed in hours. We use a clock to measure time in hours, minutes and seconds.

The duration of time taken to complete the construction of a house is expressed in months. We use calendar to express duration in months, weeks and days.

## Practice

Tick (✓) the appropriate time measuring device.

| Events | |  |  |
|---|---|---|---|
| Summer vacation |  | | |
| Library time |  | | |
| Pongal celebration |  | | |
| Morning breakfast |  | | |
