Unit 1

Our Environment

You will learn about

- The nature of different environments-Forests, Plains, Hills, Ponds, Rivers, Seas and Deserts

8OKYZ

Our earth has different land forms and water bodies like forests, plains, mountains, hills, deserts, rivers and seas.

There was a big celebration in school for the National Children's Science Congress. Everybody was excited. Students had come from many schools from all over India. They introduced themselves and spoke about the places they had come from.
