Stages of Growth

There are three things which make us different from other animals in the world.

- ❖ We have an upright posture.
- ❖ We can communicate using speech.
- ❖ We can think.

I have grown from being a baby to a six/seven year old child.
I can eat on my own.
I can read, write and draw.
I can play many games.

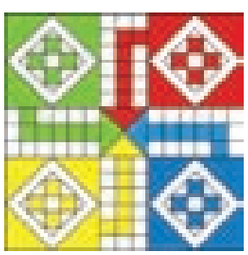

We all love to play games. Games are of two types; indoor and outdoor.

Indoor games

Pallankuzhi

Dayam

Outdoor games

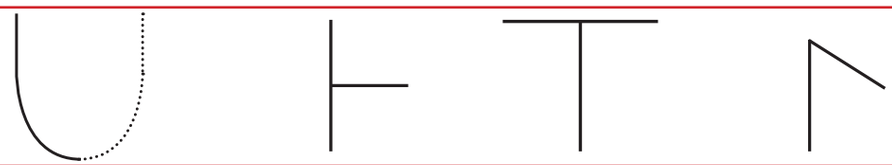

Hopscotch
(Pandi)

Top
(Bambaram)

Draw the other side and complete the letters.
