

Mother: "The smaller ones are called boats and the bigger ones are the ships. Ships carry a large number of people and goods from one country to another".

Think and Discuss

Do vehicles that move on water have any wheels? How do they move?

Vehicles on the Waterways

Catamaran
(Kattumaram)
Uses oars to move
Used for fishing

Motor boat
Uses fuel to move
Used for fishing and for pleasure rides

Sailing boat
Sails help it move
Used for travel and sport

Ship
Uses fuel to move
Carries goods and people over long distances

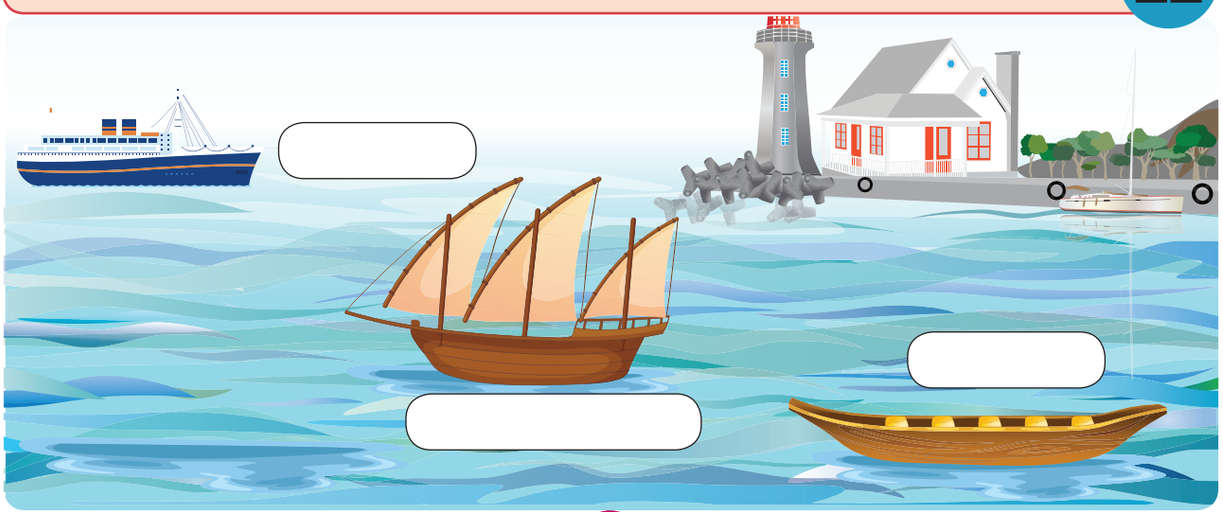

The coracle is used to travel on lakes and rivers for short distances. It can carry five to six people.

The children played on the sea shore.

Kavitha: "What a lovely visit!"

Write the names of the vehicles.
