Comparison of price

Pari bought a doll for ₹ 50 for his sister.
Arivu bought a doll for ₹ 70 for his brother.

Arivu bought the doll with more money than Pari.
So, we can express this as Arivu's doll is costlier than Pari's.

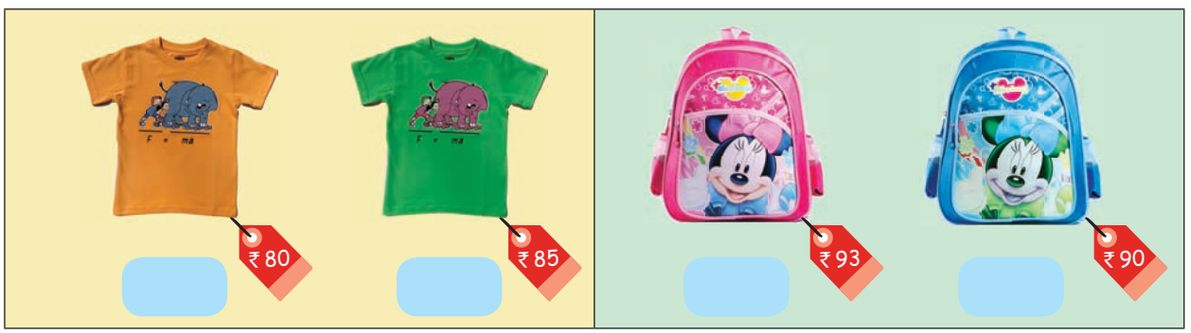

Kural bought a water bottle for ₹ 80.
Madhi bought a water bottle for ₹ 95.

Kural bought the water bottle with less money than Madhi.
So, Kural's water bottle is cheaper than Madhi's.

Practice

Tick (✓) the object which is costlier between the given two.

Tick (✓) the object which is cheaper between the given two.
