Observe the farmer's house. What animals do you see?

These animals are found in and around our homes. We take care of them and they help us in several ways. Such animals are called domestic animals.

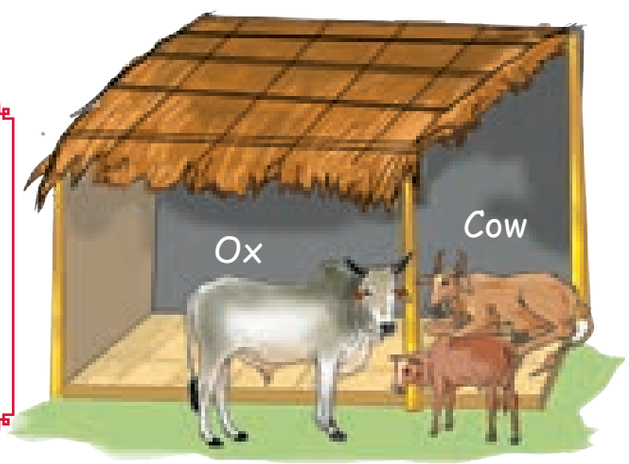

Some domestic animals help us in our farm work. They are called farm animals.

Chicku saw the farm and the farm animals. She introduced herself and spoke to the animals.

"I am a sparrow. My name is Chicku".

Ox: "Hello Chicku! I help to plough the farm".
Cow: "I give milk and my dung is used as manure and fuel.
The farmer provides us a home called a shed. My young one is called a calf".
